NorthStar Care Community Grows Through Addition of Wings of Hope Hospice & Palliative Care

Wings of Hope will join hospice organization creating one of the largest not-for-profit in the United States

ANN ARBOR, Mich. (October 1, 2026) – [NorthStar Care Community](#) announces its newest affiliate to the organization, [Wings of Hope Hospice & Palliative Care](#), effective October 1.

The Allegan-based organization joins three legacy not-for-profits, [Arbor Hospice](#), [Centrica Care Navigators](#) and [Hospice of Michigan](#), as part of the NorthStar Care Community, the largest hospice and palliative care organization in the state of Michigan and one of the largest not-for-profit in the United States. NorthStar Care Community will leverage the combined skills and resources from all four organizations to serve more than 3,000 hospice and palliative patients daily.

Wings of Hope will maintain its brand identity, legacy programs, and continue to provide services to patients and families without interruption while keeping care teams intact. The organization will continue to provide services throughout Allegan County and surrounding communities from its current office in Allegan. Arbor Hospice, Centrica Care Navigators and Hospice of Michigan will continue to operate in its current service area representing nearly every county in Michigan's Lower Peninsula.

“The addition of Wings for Hope’s services to our network of end-of-life brands will allow us to strengthen the services we provide families during their time of need,” said Patrick Miller, president and CEO of NorthStar Care Community. “Through the collaboration of our organizations, we will reinforce our commitment to grow throughout Michigan, and to provide our patients and their families with exceptional care regardless of their age, diagnosis or financial circumstances.”

The NorthStar Care Community is an organization of mission-driven providers, programs and services devoted to continually increasing access to care for serious illnesses and support during end of life – especially at home. With the addition of Wings for Hope, NorthStar Care Community will now employ more than 1,100 individuals and utilize more than 600 volunteers throughout the state of Michigan.

About NorthStar Care Community

NorthStar Care Community (NSCC) preserves and promotes the mission of not-for-profit hospice and palliative care – delivering expert, compassionate care to patients of any age, no matter their diagnoses, complexity of care, place of residence or financial circumstances. NorthStar Care Community is anchored by its founding members – Arbor Hospice, Centrica Care Navigators and Hospice of Michigan. NorthStar Care

Community's 48 years of expertise includes improving access to seriously ill care for everyone, regardless of their age, diagnosis or financial circumstances. Together, we're able to better guide our patients and families through serious illness with the help, collective knowledge and best practices of a larger group of mission-aligned experts. In Michigan, NSCC members serve more than 9,800 patients annually.

NorthStar Solutions Group supports nearly 50 partners in 17 states and, helping hospice and home healthcare organizations increase efficiencies, improve patient care and help lower the cost of operations through its 24/7 triage services (**NorthStar Triage**), analytics, custom applications and technical services (**NorthStar Technology**) and fundraising (**NorthStar Fundraising**). Collectively, NorthStar Solutions Group touches the lives of more than 10,000 patients and families every day.
